We want to help you to be prepared to work in a worldwide marketplace using applied technology in a diverse and changing business atmosphere. THE REST IS UP TO YOU!!

KACC Student Mission Statement

Attending Kankakee Area Career Center is an opportunity offered to today's young adults to create a better workforce for tomorrow. We offer specialized programs that incorporate hands-on and academic experiences. We are a diverse community united by one goal, to pursue passions and realize potential. Kankakee Area Career Center brings students aspirations to action.

The **KANKAKEE AREA CAREER CENTER (KACC)** located in Bourbonnais, Illinois, is a high school level institution, and a cooperative agency offering elective career and technical programs for students from fourteen high schools in three counties. Although the primary purpose of KACC is to provide students with employable skills, KACC serves both the non-college bound student as well as the college-bound student. Whether you are interested in attending a trade school or obtaining employment upon graduation from high school, interested in obtaining technical skills, or are college bound, your course will be of benefit to you.

The Eleven programs offered by the Career Center, span a wide range of occupational areas. Although all programs are designed as two-year programs, students may elect to take a program for one or two years. Programs offered earn students three high school credits per year with tuition being paid by the sending school district on a per capita basis. Students spend two hours per day of instructional time at KACC. Transportation is provided by each school.

The philosophy of the **KANKAKEE AREA CAREER CENTER** is based on the concept that all students, regardless of color, race, nationality, religion, age, sex, sexual orientation, ancestry, disability or 504 accommodations, economic level or academic level; gender identity, status of being homeless, immigration status, order of protection status, actual or potential marital or parental status, including pregnancy should have an equal opportunity to participate in and profit from high quality career and technical programs.

No student shall, based on color, race, national origin, sex, creed, sex, sexual orientation, or gender identity be denied equal access to programs, activities, services, or benefits or be limited in the exercise of any right, privilege, advantage, or denied equal access to educational and extracurricular programs and activities.

Programs are based on the needs of the communities served and are made available to juniors and seniors in the Kankakee Area Regional Vocational Education System (KARVES). Should parents or students have any questions or any cause to believe a disability is impacting the educational opportunities provided through Kankakee Area Career Center, they may contact the Director's Office at 815-939-4971.

American education recognizes two basic needs common to all people. First, the need for basic academic education required to participate fully as a socially responsible citizen. Second, the need for each person to possess those specialized skills and knowledge required for economic productivity. It is the intent of the Kankakee Area Career Center to be the vehicle by which an individual will be able to realize his/her potential by "*preparing students for tomorrow.*"

Career and technical education not only provides education in a specific skill area, it also provides further education in the basic skills needed to succeed not only in today's world, but in tomorrow's world as well. The Center, an extension of the schools within the region, increases the feasibility to provide expanded career and technical programs for students by cooperatively sharing available resources and costs.

Student Rights and Responsibilities

All students are entitled to enjoy the rights protected by the US and Illinois Constitutions and laws for persons of their age and maturity in a school setting. These rights include the right to voluntarily engage in individually initiated, non-disruptive prayer that consistent with the Free Exercise and Establishment Clauses of the US and Illinois Constitutions is not sponsored, promoted or endorsed in any manner by the school or any school employee. Students should exercise these rights reasonably and void violating the rights of others. Students who violate the rights of others or violate policies or rules will be subject to disciplinary measures as outlined in the disciplinary section of this handbook.

**ENROLLMENT/
GENERAL
POLICIES**

ENROLLMENT/GENERAL POLICIES

Enrollment Procedures

Enrollment at the Kankakee Area Career Center is determined by the principal and counselor of the home school along with the parent. The KACC Principal annually conducts a multimedia presentation with the sophomore and junior classes of the participating schools to inform students of the opportunities available at the Kankakee Area Career Center. Individuals interested in attending classes at the Career Center should see their counselor for an application before their junior or senior year. Upon approval of the home school principal and counselor, the student will be admitted to KACC.

Changing Classes at KACC

Class changes, after the 11th day of school, are not permitted without the consent of both the home school and the KACC Principal. A Course Change Form must be completed and signed by both the home school counselor and your parent/guardian.

Dropping Classes at KACC

When it is necessary for a student to drop a KACC program, the student must secure permission from the home school and Career Center Principal's Office. All drops, except for those due to severe cases of discipline, are initiated by the home school.

Change of Address

Students must report any change of address or telephone number to the Principal's Office so records can be kept up to date.

Checkout Procedures

Students are accountable for a preliminary check of all materials during the 4th Quarter. All materials must be accounted for by the home school's last day of attendance. Special certificates or awards will not be presented to students with outstanding obligations.

Fundraisers

Fundraisers are employed from time to time to enable KACC organizations and courses to expand experiences beyond the regular classroom. Students must follow all KACC and KACC instructor rules/policies, home school rules/policies and bus company/driver rules/policies regarding fund raising activities. Abuses of any rule or policy may result in the loss of fund raising activities.

Care of Equipment

Students are to utilize common sense and care while using KACC facility and equipment. Remember, broken or damaged equipment will only serve to slow students' progress. In cases where student damage of tools and/or equipment is considered negligence by the instructor and/or administrator, the student is required to pay for the repair or replacement of such, whichever is appropriate.

Search and Seizure

In order to maintain order and security in the school, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. "School authorities" includes school liaison police officers.

School Property and Equipment as well as Personal Effects Left there by Students

School authorities may inspect and search school property and equipment owned or controlled by the school, (such as lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there. This paragraph also applies to student vehicles parked on school property. KACC requires each student to consent, in writing, to school searches of his or her vehicle and personal effects therein, without notice and without suspicion of wrongdoing in return for the privilege of parking on school property. The Director and/or principal may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

The Director may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

Students

School authorities may search a student and/or the student's personal effects in the student's possession (such as, purses, wallets, knapsacks, book bags, lunch boxes, etc) when there is a reasonable ground for suspecting the search will produce evidence the particular student has violated or is violating either the law or the System's student conduct rules. The search itself must be conducted in a manner that is reasonably related to its objective and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

When feasible, the search should be conducted as follows:

1. Outside the view of others, including students,
2. In the presence of a school administrator or adult witness, and
3. By a certificated employee or liaison police officer of the same sex as the student.

Immediately following a search, a written report shall be made by the school authority who conducted the search, and given to the Director.

Seizure of Property

If a search produces evidence that the student has violated or is violating the law or the Center's policies or rules, such evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities.

Agency and Police Interviews

Director and/or principal shall manage requests by agency officials or police officers to interview students at school through procedures that: (1) recognize individual student rights and privacy, (2) minimize potential disruption, (3) foster a cooperative relationship with public agencies and law enforcement, and (4) comply with State Law.

Student Appearance

A student's appearance, including dress and grooming, must not disrupt the educational process, interfere with the maintenance of a positive teaching/learning climate, or comprise reasonable standards of health, safety, and decency. (See Dress Code)

Vandalism

The Kankakee Area Career Center will seek restitution from students and their parents/guardians for vandalism or other student acts that cause damage to school property.

Lockers

Hall lockers are provided for each student. Students are required to keep coats and other personal belongings not pertaining to class in their assigned locker and to keep their lockers locked at all times for their own protection. KACC does not assume responsibility for money or other valuables taken from lockers.

All students are expected to occupy the locker assigned to them. Locker combinations are given only to the student(s) assigned to a particular locker. Students are not permitted to change lockers unless they have received approval from the Principal's Office. Defacing or placing objectionable materials on the locker is not permitted. Students defacing and/or damaging lockers are responsible for repairs and subject to disciplinary action.

Note: All student lockers are property of KACC and are subject to inspection with or without the student's knowledge and/or consent.

State educational authorities and court decisions have determined that hair and dress styles should enhance not detract from the educational process as well as comply with state health and safety standards. Many national studies concerning schools list a positive school climate as a major characteristic of effective schools. Student dress is one of the factors that influence school climate.

Article I. Notification of Rights under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days after the day the [Name of school ("School")] receives a request for access.

Parents or eligible students who wish to inspect their child's or their education records should submit to the school principal [or appropriate school official] a written request that identifies the records they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

Parents or eligible students who wish to ask the [School] to amend their child's or their education record should write the school principal [or appropriate school official], clearly identify the part of the record they want changed, and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. The criteria for determining who constitutes a school official and what constitutes a legitimate educational interest must be set forth in the school's or school district's annual notification for FERPA rights. A school official typically includes a person employed by the school or school district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the school board. A school official also may include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her

tasks. A school official typically has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the school discloses education records without consent to officials of another school or school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer. [NOTE: FERPA requires a school or school district to make a reasonable attempt to notify the parent or student of the records request unless it states in its annual notification that it intends to forward records on request or the disclosure is initiated by the parent or eligible student.]

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the [School] to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

FERPA permits the disclosure of PII from students' education records, without consent of the parent or eligible student, if the disclosure meets certain conditions found in § 99.31 of the FERPA regulations. Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the parent or eligible student, § 99.32 of the FERPA regulations requires the school to record the disclosure. Parents and eligible students have a right to inspect and review the record of disclosures. A school may disclose PII from the education records of a student without obtaining prior written consent of the parents or the eligible student –

- To other school officials, including teachers, within the educational agency or institution whom the school has determined to have legitimate educational interests. This includes contractors, consultants, volunteers, or other parties to whom the school has outsourced institutional services or functions, provided that the conditions listed in § 99.31(a)(1)(i)(B)(1) - (a)(1)(i)(B)(3) are met. (§ 99.31(a)(1))
- To officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer, subject to the requirements of § 99.34. (§ 99.31(a)(2))
- To authorized representatives of the U. S. Comptroller General, the U. S. Attorney General, the U.S. Secretary of Education, or State and local educational authorities, such as the State educational agency (SEA) in the parent or eligible student's State. Disclosures under this provision may be made, subject to the requirements of § 99.35, in connection with an audit or evaluation of Federal- or State-supported education programs, or for the enforcement of or compliance with Federal legal requirements that relate to those programs. These entities may make further disclosures of PII to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, or enforcement or compliance

activity on their behalf, if applicable requirements are met. (§§ 99.31(a)(3) and 99.35)

- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary for such purposes as to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid. (§ 99.31(a)(4))
- To State and local officials or authorities to whom information is specifically allowed to be reported or disclosed by a State statute that concerns the juvenile justice system and the system's ability to effectively serve, prior to adjudication, the student whose records were released, subject to § 99.38. (§ 99.31(a)(5))

SECTION E

ATTENDANCE POLICIES

ATTENDANCE POLICY
(Absenteeism, Tardiness, Late Arrival and Early Dismissal)

Absenteeism is not only one of the greatest causes of failure, but a major cause for loss of employment. At KACC we believe student attendance is an integral part of the total learning experience. We take a very strong position on the need for students to be in attendance on a regular basis. KACC simulates business and industry; therefore, we expect students to develop and maintain a good attendance record. A student's attendance record is an important part of the recommendation KACC provides potential employers. Since regular attendance is of the utmost importance to future employment, the following attendance policy has been established.

Attendance Reports

Attendance is taken shortly after the bell rings for each time slot. Students are expected to report directly to class when the bell rings. Home schools are contacted during each time slot to report any absences.

Mental Health Absences

Students are afforded 5 mental health days per year and are considered excused absences. To use a mental health day a parent or guardian needs to call KACC and inform us that the student is taking a mental health day. Upon return to KACC, the student will report to the KACC counselor for a follow-up check-in on their 3rd and 5th mental health day before returning to class.

Excessive Absences

Excessive absences have a direct effect on your grade and ability to test for your certification/license in your curriculum area. Students receiving more than 12 unverified absences for Semester 1, and more than 14 unverified absences for Semester 2, may receive a failing grade. In addition, unverified absences may result in not being able to attend KACC for a second year.

Excused Absence - Civic Event

Students are allowed at least one school-day long excused absence per year, permitted by a school board, to participate in a civic event.

Criteria for Excused and Unexcused Absences

Excused**

- School Sponsored Event
- Illness
- Technical School/College/University Visit
- Homebound
- Court Date
- Funeral
- Mental Health Day (up to 5 days)

Unexcused

- Illness undocumented
- Parent verified absence
- Vacation
- Any unverified absence

**All excused absences require official documentation.

It is the responsibility of the student to contact his/her instructor prior to the absence to determine what he/she will miss during the absence. All make-up work is due on or before the day of return from the absence. Additionally, students will participate in any KACC activity (test, quiz, etc.) which may occur on the day of return from absence.

Absences Due to Being Homebound/Quarantined

Occasionally it may become necessary for a student to be placed on homebound. When this occurs, KACC will work with the homebound student's home school. Upon request from the home school, the KACC instructor will provide material for the homebound student to complete. **Upon completion of the material, it is to be returned to the KACC instructor for grading.** After receiving completed work, the instructor will provide new assignments for the student to complete. This process will continue as long as requested by the home school.

Although a student is homebound, they are expected to complete assignments equal to those administered to students in attendance at KACC. **Kankakee Area Career Center shall make the final determination of the grade for any homebound student.** The grade shall be based upon work completed while in attendance and work completed while homebound.

Make-up Work for Absences

Due to the large amount of lab and shop work involved in the courses at KACC, it is difficult, if not impossible, to make up work missed in many classes. Since attendance is required to complete much of the work assigned, it is difficult to obtain a good grade when days are missed. Excessive absences could result in a poor, or even failing, grade.

If a student's absence is excused or if a student is suspended from school, he/she will be permitted to make up all missed classroom (non-lab) work, including homework and tests, for equivalent academic credit. Students who are unexcused from school will not be allowed to make up missed work. **Make-up work is the responsibility of the student.**

- **Assignments**

Students will be allowed to make up missed assignments any time they are absent. Students absent for one day will be given one day to "make up" the assignment. Students absent for two days will have two days to "make up" the assignment; absent for three days will have three days to complete missed assignments; etc.

- **Employability Skills Points**

Instructors perform daily grading of "Employability Skills", which is 40% of the student's grade. Students can receive 10 points per day. Students will be allowed to miss up to two (2) days of attendance per semester without losing points for "Employability Skills." Students will be required to show evidence of a doctor's visit in order to keep points for "Employability Skills" for any absence exceeding two (2) days. Students will receive zero points for "Employability Skills" after missing two unverified days of attendance in each semester.

Tardiness

Students are expected to report to the classroom before going to the restroom or any other part of the building. Failure to be in the room at the beginning of class will be considered a tardy.

Progression of discipline for being tardy within one semester:

- Tardy #1: Verbal warning from instructor
- Tardy #2: Phone call/conversation with parent/guardian
- Tardy #3: Level 1 Offence
- Tardy #4: Excessive tardiness resulting in possible parent conference and/or moving into discipline procedure.

Late Arrival

Students arriving late due to a late school bus are not counted tardy. Upon a late arrival to KACC, the student is to report directly to the Main Office. The office staff will call the home school to verify they are aware of the late arrival and mode of transportation. Any student arriving late without the approval of the home school principal (or his/her designated person) will be considered unexcused and possible further disciplinary action taken.

Early Dismissal

Students are not allowed to leave KACC by any means other than the school provided bus without **prior approval**. Any student needing to leave KACC before scheduled departure time must have a parent/guardian call the home school to request permission. If permission is granted, the home school will notify KACC. The parent/guardian will be required to come in and sign the student out.

Overnight Field Trips

Occasionally Career Center teachers may offer an overnight field trip to his/her students. **If such a trip is offered, the parents/guardians of the student will be required to participate in a meeting with the sponsoring teacher.** Any participating student will be required to sign an Overnight Field Trip Student Responsibilities Form. No student will be allowed to attend the trip who has not signed the Responsibilities Form.

GRADING POLICY

GRADING POLICY

Grades are reported to the home schools at the end of each nine (9) week grading period. Grades are also reported directly to the student. Parents and students will be able to access their son's/daughter's progress via the Infinite Campus Parent Portal. This is a secure network whereby parents and students will only be able to access their specific grades. We encourage parents to do this. A user ID and Password will be issued to parents and students at the beginning of the school year.

Classroom Grades

The following grades may be earned by a student:

Progress Reports

The Career Center considers your career and technical development of extreme importance. We, therefore, monitor your progress as closely as possible. The progress report communicates to the principal, counselor, parent, and student how the student is progressing.

Any student receiving a “D” or “F” grade at the middle of the quarter will receive a progress report at that time. Additional progress reports will be sent as the need arises during the school year. If a student receives a progress report, it may be advisable to set up a conference with the KACC principal, the instructor, the home school counselor, the parent and the student.

Incompletes

A student who receives an "incomplete" has until ten (10) days from the end of the quarter to make up any deficiencies. (No incompletes are issued for the 2nd semester). At the end of the ten (10) days the "incomplete" work becomes a "zero" and is averaged in with all other grades.

If an incomplete is determined to be a medical incomplete, then additional time may be granted to complete the work. All work must be completed by the end of the year.

Quarter Grades

A student's quarter grade is made up of a combination of classroom/academic achievement and achievements in the area of employability skills. Each area counts toward the quarter grade as follows:

In accordance with the Carl D. Perkins Career and Technical Education Act of 2006:

Section 113: ACCOUNTABILITY

- (a) PURPOSE—The purpose of this section is to establish and support State and local performance accountability systems, comprised of the activities described in this section, to assess the effectiveness of the State and the eligible recipients of the State in achieving statewide progress in career and technical education, and to optimize the return of investment of Federal funds in career and technical education activities.

SECTION I

DISCIPLINE POLICY & GRIEVANCE

DISCIPLINE POLICY

Discipline is a means of fostering the growth of students toward maturity and responsibility. The learning/educational environment of the Kankakee Area Career Center shall be such that the administration and teachers shall demonstrate fair, firm, frank, friendly and flexible attitudes with regard to discipline efforts toward all KACC students. Student behavior which, disrupts the educational environment of the Center or endangers others will not be permitted at the Center or at any of its functions. Student discipline and all handbook policies specifically apply to student conduct:

- On school grounds before, during, or after school hours and at any other time when the school is being used for school purposes
- Off school grounds at a school activity, function, or event
- Traveling to or from school or a school activity, function, or event
- Anywhere, if the conduct may reasonably be considered to be a threat or an attempted intimidation of a staff member or an interference with school purposes or an education function.

The Kankakee Area Career Center disciplinary policies may include, but are not limited to, the following disciplinary measures:

- | | |
|---------------------------------|----------------------|
| • Counseling | • Detention |
| • Warnings (verbal and written) | • Suspension |
| • Loss of hours | • Probation |
| • Withholding of privileges | • Removal from KACC |
| • Seizure of contraband | • Notifying juvenile |
| • Removal from the classroom | authorities or law |
| • Notifying parents/guardians | enforcement |

The Kankakee Area Career Center is an educational extension of the home school. Because of this, the Kankakee Area Career Center must attempt to maintain an extension of the home school's policies. These policies, in combination with the policies developed by the Kankakee Area Career Center, represent the discipline procedures to be followed by the Kankakee Area Career Center staff, faculty and administration. The home school will be contacted and consulted on all discipline incidents. Disciplinary consequences will be the result of communications between the home school and the Kankakee Area Career Center administration.

Any problems considered to be of such a nature that it requires disciplinary action may be referred to the KACC Dean of Students. Prior to receiving a disciplinary action, the student shall be given the opportunity to deny, and/or to explain his/her misconduct to the classroom teacher and/or KACC Principal (if not available, the home school administrator). These referrals are the last means by which a classroom teacher or staff member may deal with a disruptive or unlawful student.

The following pages provide a summary of the discipline categories, and the corresponding disciplinary actions taken at KACC for each level. The examples given are not all inclusive, but are intended to give an overview of the Center's disciplinary policy.

Efforts, including the use of positive interventions and supports shall be made to deter students, while at school or a school-related event, from engaging in aggressive behavior that may reasonably produce physical or psychological harm to someone else.

No disciplinary action shall be taken against any student that is based totally or in part on the refusal of the student's parent/guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student.

The goals and objectives of this policy are to provide effective discipline practices that: (1) ensure the safety and dignity of students and staff; (2) maintain a positive, weapons-free, and drug-free learning environment; (3) keep school property and the property of others secure; (4) address the causes of a student's misbehavior and provide opportunities for all individuals involved in an incident to participate in its resolution; and (5) teach students positive behavioral skills to become independent, self-disciplined citizens in the school community and society.

When and Where Conduct Rules Apply

The grounds for disciplinary action also apply whenever the student's conduct is reasonably related to school or school activities, including but not limited to:

1. On, or within sight of, school grounds before, during, or after school hours or at any time;
2. Off school grounds at a school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school;

5. Return of property or restitution for lost, stolen, or damaged property.
6. In-school suspension. The Building Principal or designee shall ensure that the student is properly supervised.
7. After-school study or Saturday study provided the student's parent/guardian has been notified. If transportation arrangements cannot be agreed upon, an alternative disciplinary measure must be used. The student must be supervised by the detaining teacher or the Building Principal or designee.
8. Community service with local public and nonprofit agencies that enhances community efforts to meet human, educational, environmental, or public safety needs. The District will not provide transportation. School administration shall use this option only as an alternative to another disciplinary measure, giving the student and/or parent/guardian the choice.
9. Seizure of contraband; confiscation and temporary retention of personal property that was used to violate this policy or school disciplinary rules.
10. Suspension of bus riding privileges in accordance with Board policy 7:220, *Bus Conduct*.
11. Out-of-school suspension from school and all school activities in accordance with Board policy 7:200, *Suspension Procedures*. A student who has been suspended may also be restricted from being on school grounds and at school activities.
12. Expulsion from school and all school activities for a definite time period not to exceed 2 calendar years in accordance with Board policy 7:210, *Expulsion Procedures*. A student who has been expelled may also be restricted from being on school grounds and at school activities.
13. Transfer to an alternative program if the student is expelled or otherwise qualifies for the transfer under State law. The transfer shall be in the manner provided in Article 13A or 13B of the School Code.
14. Notifying juvenile authorities or other law enforcement whenever the conduct involves criminal activity, including but not limited to, illegal drugs (controlled substances), "look-alikes," alcohol, or weapons or in other circumstances as authorized by the reciprocal reporting agreement between the District and local law enforcement agencies.

The above list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension and expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion.

Corporal punishment is prohibited. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

Weapons

A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of at least one calendar year but not more than 2 calendar years:

1. A firearm, meaning any gun, rifle, shotgun, or weapon as defined by Section 921 of Title 18 of the United States Code (18 U.S.C. § 921), firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act (430 ILCS 65/), or firearm as defined in Section 24-1 of the Criminal Code of 1961 (720 ILCS 5/24-1).

2. A knife, brass knuckles, or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including “look alike” of any firearm as defined above.

The expulsion requirement under either paragraph 1 or 2 above may be modified by the Superintendent, and the Superintendent’s determination may be modified by the Board on a case-by-case basis. The Superintendent or designee may grant an exception to this policy, upon the prior request of an adult supervisor, for students in theatre, cooking, ROTC, martial arts, and similar programs, whether or not school-sponsored, provided the item is not equipped, nor intended, to do bodily harm.

This policy’s prohibitions concerning weapons apply regardless of whether: (1) a student is licensed to carry a concealed firearm, or (2) the Board permits visitors, who are licensed to carry a concealed firearm, to store a firearm in a locked vehicle in a school parking area.

Re-Engagement of Returning Students

The Principal or designee shall maintain a process to facilitate the re-engagement of students who are returning from an out-of-school suspension. The goal of re-engagement shall be to support the student’s ability to be successful in school following a period of exclusionary discipline and shall include the opportunity for students who have been suspended to complete or make up work for equivalent academic credit.

Required Notices

A school staff member shall immediately notify the office of the Building Principal in the event that he or she: (1) observes any person in possession of a firearm on or around school grounds; however, such action may be delayed if immediate notice would endanger students under his or her supervision, (2) observes or has reason to suspect that any person on school grounds is or was involved in a drug-related incident, or (3) observes a battery committed against any staff member. Upon receiving such a report, the Building Principal or designee shall immediately notify the local law enforcement agency, State Police, and any involved student’s parent/guardian. “School grounds” includes modes of transportation to school activities and any public way within 1000 feet of the school, as well as school property itself.

Delegation of Authority

Each teacher, and any other school personnel when students are under his or her charge, is authorized to impose any disciplinary measure, other than suspension, expulsion, corporal punishment, or in-school suspension, that is appropriate and in accordance with the policies and rules on student discipline. Teachers, other certificated [licensed] educational employees, and other persons providing a related service for or with respect to a student, may use reasonable force as needed to maintain safety for other students, school personnel, or other persons, or for the purpose of self-defense or defense of property. Teachers may temporarily remove students from a classroom for disruptive behavior.

The Director, Building Principal, or Dean of Students is authorized to impose the same disciplinary measures as teachers and may suspend students guilty of gross disobedience or misconduct from school (including all school functions) and from riding the school bus, up to 10 consecutive school days, provided the appropriate procedures are followed. The Board may suspend a student from riding the bus in excess of 10 school days for safety reasons.

Disciplinary Measures

School officials shall limit the number and duration of expulsions and out-of-school suspensions to the greatest extent practicable, and, where practicable and reasonable, shall consider forms of non-exclusionary discipline before using out-of-school suspensions or expulsions. School personnel shall not advise or encourage students to drop out of school voluntarily due to behavioral or academic difficulties. Potential disciplinary measures include, without limitation, any of the following measures:

1. Notifying parents/guardians.
2. Disciplinary conference.
3. Withholding of privileges.

4. Temporary removal from the classroom.
5. Return of property or restitution for lost, stolen or damaged property.
6. In-school suspension.
7. Community service.
8. Seizure of contraband; confiscation and temporary retention of the personal property that was used to violate school rules.
9. Suspension of bus riding privileges.
10. Suspension from school and all school activities for up to 10 days. A suspended student is prohibited from being on school grounds.
11. Removal from KACC Program
12. Expulsion from school and all school activities for a definite time period not to exceed 2 calendar years. An expelled student is prohibited from being on school grounds.
13. Transfer to an alternative program if the student is expelled or otherwise qualifies for transfer under State law.

The following list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension or expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion.

Corporal Punishment

Corporal punishment is illegal and will not be used. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

Re-Engagement of Returning Students

The building principal or designee shall meet with a student returning to school from an out-of-school suspension, expulsion or alternative school setting. The goal of this meeting shall be to support the student's ability to be successful in school following a period of exclusion and shall include an opportunity for students who have been suspended to complete or make-up missed work for equivalent academic credit.

Access to Student Social Networking Passwords & Websites

School officials may conduct an investigation or require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates a school disciplinary rule or policy. In the course of an investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination.

Use of Artificial Intelligence

“Artificial intelligence” or “AI” is intelligence demonstrated by computers, as opposed to human intelligence. “Intelligence” encompasses the ability to learn, reason, generalize, and infer meaning. Examples of AI

technology include ChatGPT and other chatbots and large language models. AI is not a substitute for schoolwork that requires original thought. Students may not claim AI generated content as their own work. The use of AI to take tests, complete assignments, create multimedia projects, write papers, or complete schoolwork without permission of a teacher or administrator is strictly prohibited. The use of AI for these purposes constitutes cheating or plagiarism **and is subject to discipline in accordance stated within the KACC discipline policy.** In certain situations, AI may be used as a learning tool or a study aid. Students who wish to use AI for legitimate educational purposes must have permission from a teacher or an administrator. Students may use AI as authorized in their Individualized Education Program (IEP). Students may not use AI, including AI image or voice generator technology, to violate school rules or school district policies. In order to ensure academic integrity, tests, assignments, projects, papers, and other schoolwork may be checked by AI content detectors and/or plagiarism recognition software.

In-School Suspension

The Principal, Dean of Students or designee is authorized to maintain an in-school suspension program. The program shall include, at a minimum, each of the following:

1. Before assigning a student to in-school suspension, the charges will be explained and the student will be given an opportunity to respond to the charges.
2. Students are supervised by licensed school personnel.
3. Students are given the opportunity to complete classroom work during the in-school suspension for equivalent academic credit.

Out-of-School Suspension

The Principal, Dean of Students or designee shall implement suspension procedures that provide, at a minimum, for each of the following:

1. A conference during which the charges will be explained and the student will be given an opportunity to respond to the charges before he or she may be suspended.
2. A pre-suspension conference is not required, and the student can be immediately suspended when the student's presence poses a continuing danger to persons or property or an ongoing threat of disruption to the educational process. In such cases, the notice and conference shall follow as soon as practicable.
3. An attempted phone call to the student's parent(s)/guardian(s).
4. A written notice of the suspension to the parent(s)/guardian(s) and the student, which shall:
 - a. Provide notice to the parent(s)/guardian(s) of their child's right to a review of the suspension;
 - b. Include information about an opportunity to make up work missed during the suspension for equivalent academic credit;
 - c. Detail the specific act of gross disobedience or misconduct resulting in the decision to suspend;
 - d. Provide rationale or an explanation of how the chosen number of suspension days will address the threat or disruption posed by the student or his or her act of gross disobedience or misconduct; and
 - e. Depending upon the length of the out-of-school suspension, include the following applicable information:
 - i. For a suspension of 3 school days or less, an explanation that the student's continuing presence in school would either pose:
 - a) A threat to school safety, or
 - b) A disruption to other students' learning opportunities.
 - ii. For a suspension of 4 or more school days, an explanation:
 - a) That other appropriate and available behavioral and disciplinary interventions have been exhausted,
 - b) As to whether school officials attempted other interventions or determined that no other interventions were available for the student, and
 - c) That the student's continuing presence in school would either:
 - i) Pose a threat to the safety of other students, staff, or members of the school community, or
 - ii) Substantially disrupt, impede, or interfere with the operation of the school.
 - iii. For a suspension of 5 or more school days, the information listed in section 4.e.ii., above, along with documentation by the Director or designee determining what, if any, appropriate and available support services will be provided to the student during the length of his or her suspension.
5. A summary of the notice, including the reason for the suspension and the suspension length, must be given to the Board by the Director or designee.
6. Upon request of the parent(s)/guardian(s), a review of the suspension shall be conducted by the Board or a hearing officer appointed by the Board. At the review, the student's

parent(s)/guardian(s) may appear and discuss the suspension with the Board or its hearing officer and may be represented by counsel. Whenever there is evidence that mental illness may be the cause for the suspension, the Director or designee shall invite a representative from the Department of Human Services to consult with the Board. After presentation of the evidence or receipt of the hearing officer's report, the Board shall take such action as it finds appropriate. If the suspension is upheld, the Board's written suspension decision shall specifically detail items (a) and (e) in number 4, above.

Transitioning of Students back to District School

KACC programs mirror a real-world work environment. Students enrolled must maintain a traditional standard of business ethics. At the discretion of the KACC Principal, student will be transitioned back to their home district and removed from KACC enrollment. The Career Center has sole authority to make a final decision on student enrollment. KACC Principal will work with District Principal and counseling staff to facilitate the transition.

Reasons for Transitioning Back to District School:

- Chronic Truancy
- Threat to School/Program Environment
 - Fighting
 - Abusive Behavior
 - Bullying
- Use and/or Possession of Illegal Drugs
- Chronic Reoccurrence of Level Two and Level Three Discipline

Expulsion Procedures

It shall be conducted by the Board or a hearing officer appointed by it. If a hearing officer is appointed, he or she shall report to the Board the evidence presented at the hearing and the Board shall take such final action as it

finds appropriate. Whenever there is evidence that mental illness may be the cause for the recommended expulsion, the Director or designee shall invite a representative from the Dept. of Human Services to consult with the Board.

3. During the expulsion hearing, the Board or hearing officer shall hear evidence concerning whether the student is guilty of the gross disobedience or misconduct as charged. School officials must provide: (1) testimony of any other interventions attempted and exhausted or of their determination that no other appropriate and available interventions were available for the student, and (2) evidence of the threat or disruption posed by the student.  - d. Document how the student's continuing presence in school would (1) pose a threat to the safety of other students, staff, or members of the school community, or (2) substantially disrupt, impede, or interfere with the operation of the school.
5. Upon expulsion, the District may refer the student to appropriate and available support services.

Harassment of Students Prohibited

No person, including a System employee or agent, or student, shall harass, intimidate or bully another student based upon a student's race, color, national origin, sex, sexual orientation, ancestry, age, religion, creed, physical or mental disability, status as homeless, or actual or potential marital or parental status, including pregnancy. The system will not tolerate harassing, intimidating conduct, or bullying whether verbal, physical or visual, that affects the tangible benefits of education, that unreasonably interferes with a student's educational performance, or that creates an intimidating, hostile, or offensive educational environment. Examples of prohibited conduct include name-calling, using derogatory slurs, causing psychological harm, threatening or causing physical harm, or wearing or possessing items depicting or implying hatred or prejudice of one of the characteristics stated above.

Complaints of harassment, intimidation or bullying are handled according to the provisions on sexual harassment below. The Principal/Director shall use reasonable measures to inform staff members and students that KACC will not tolerate harassment, intimidation and includes this policy in the teacher handbook and policy manual.

Prevention of and Response to Bullying, Intimidation, and Harassment

Bullying, intimidation, and harassment diminish a student's ability to learn and a school's ability to educate. Preventing students from engaging in these disruptive behaviors and providing all students equal access to a safe, non-hostile learning environment are important district and school goals.

Bullying on the basis of actual or perceived race, color, national origin, military status, unfavorable discharge status from the military service, sex, sexual orientation, gender identity, gender-related identity or expression, ancestry, age, religion, physical or mental disability, order of protection status, status of being homeless, or actual or potential marital or parental status, including pregnancy, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is **prohibited** in each of the following situations:

1. During any school-sponsored education program or activity.
2. While in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities.
3. Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment.
4. Through the transmission of information from a computer that is accessed at a non-school-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by the school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school.

Bullying includes cyber-bullying and means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student or students that has or can be reasonably predicted to have the effect of one or more of the following:

1. Placing the student or students in reasonable fear of harm to the student's or students' person or property;
2. Causing a substantially detrimental effect on the student's or students' physical or mental health;

3. Substantially interfering with the student's or students' academic performance; or
4. Substantially interfering with the student's or students' ability to participate in or benefit from the services, activities, or privileges provided by a school.

Cyberbullying means bullying through the use of technology or any electronic communication, including without limitation any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photo-electronic system, or photo-optical system, including without limitation electronic mail, Internet communications, instant messages, or facsimile communications. Cyberbullying includes the creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content or messages if the creation or impersonation creates any of the effects enumerated in the definition of bullying. Cyberbullying also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of bullying.

Examples of prohibited conduct include name-calling, using derogatory slurs, stalking, sexual violence, causing psychological harm, threatening or causing physical harm, threatened or actual destruction of property, or wearing or possessing items depicting or implying hatred or prejudice of one of the characteristics stated above.

Students are encouraged to immediately report bullying. A report may be made orally or in writing to the building principal, nondiscrimination coordinator, district complaint manager or any staff member with whom the student is comfortable speaking. All school staff members are available for help with a bully or to make a report about bullying. Anyone, including staff members and parents/guardians, who has information about actual or threatened bullying is encouraged to report it to the district complaint manager or any staff member. Anonymous reports are also accepted by phone call or in writing.

A reprisal or retaliation against any person who reports an act of bullying is prohibited. A student's act of reprisal or retaliation will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.

A student will not be punished for reporting bullying or supplying information, even if the school's investigation concludes that no bullying occurred. However, knowingly making a false accusation or providing knowingly false information will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.

KACC will alert parents and guardians of alleged bullying incidents involving their child within 24 hours after the school's administration is made aware of the incident.

KACC does not discriminate on the basis of age, color, national origin, sex, religion or disability.

The Director has identified the names, addresses and telephone numbers of the Career Center's current Nondiscrimination Coordinator and Complaint Managers.

Any Career Center employee who is determined, after an investigation, to have engaged in sexual harassment will be subject to disciplinary action up to and including discharge. Any Career Center student who is determined, after an investigation to have engaged in sexual harassment will be subject to disciplinary action, including but not limited to, suspension and expulsion consistent with the discipline policy. School Operations During a Pandemic or Other Health Emergency

This handbook procedure is meant to apply generally to any pandemic or other health emergency and should be supplemented with other relevant and timely information.

A pandemic is a global outbreak of disease. Pandemics happen when a new virus emerges to infect individuals and, because there is little to no pre-existing immunity against the new virus, it spreads sustainably. Your child's school and district play an essential role, along with the local health department and emergency management agencies, in protecting the public's health and safety during a pandemic or other health emergency.

During a pandemic or other health emergency, you will be notified in a timely manner of all changes to the school environment and schedule that impact your child. Please be assured that even if school is not physically in session, it is the goal of the school and district to provide your child with the best educational opportunities possible.

Additionally, please note the following:

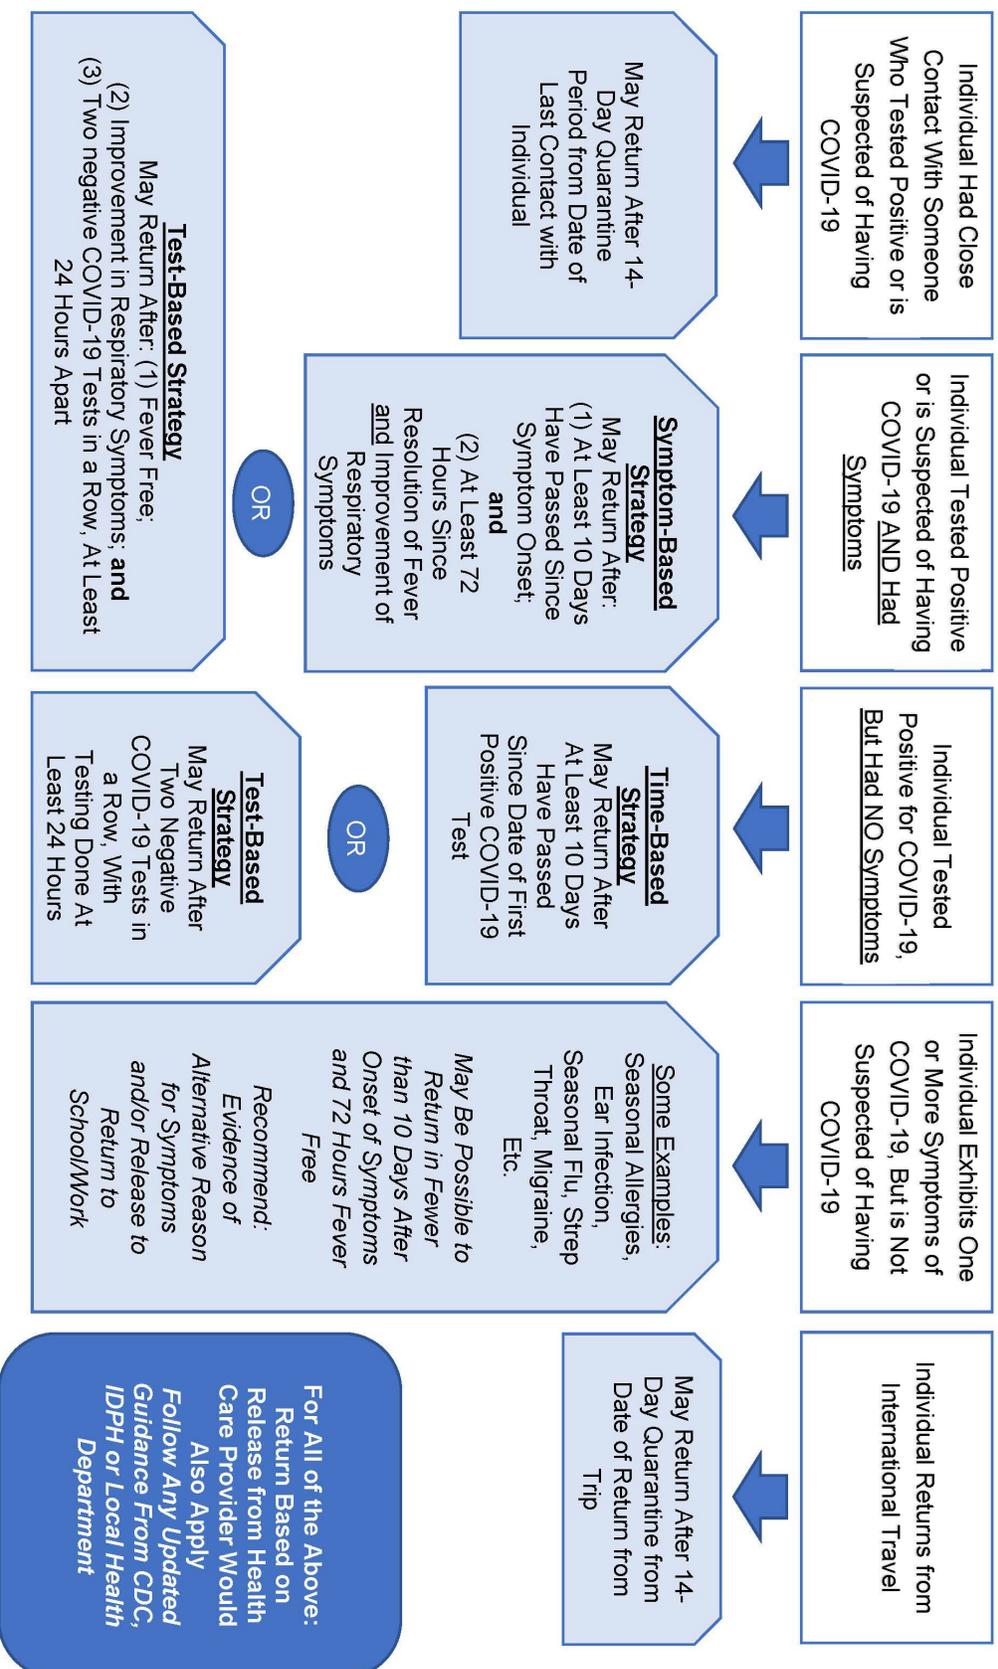

1. All decisions regarding changes to the school environment and schedule, including a possible interruption of in-person learning, will be made by the superintendent in consultation with and, if necessary, at the direction of the Governor, Illinois Department of Public Health, local health department, emergency management agencies, and/or Regional Office of Education.
2. Available learning opportunities may include remote and/or blended learning. Blended learning may require your child to attend school on a modified schedule.
3. Students will be expected to participate in blended and remote instruction as required by the school and district. Parents are responsible for assuring the participation of their child. Students who do not participate in blended or remote learning will be considered truant.
4. All school disciplinary rules remain in effect during the interruption of in-person learning. Students are subject to discipline for disrupting the remote learning environment to the same extent that discipline would be imposed for disruption of the traditional classroom.
5. Students and parents will be required to observe all public health and safety measures implemented by the school and district in conjunction with state and local requirements.
6. During a pandemic or other health emergency, the school and district will ensure that educational opportunities are available to all students.
7. School personnel will work closely with students with disabilities and other vulnerable student populations to minimize the impact of any educational disruption.
8. Students who have a compromised immune system, live with an individual with a compromised immune system, or have a medical condition that may impact their ability to attend school during a pandemic or other public health emergency should contact school officials.
9. During a pandemic or other health emergency, teachers and school staff will receive additional training on health and safety measures.
10. In accordance with school district or state mandates, the school may need to conduct a daily health assessment of your child. Parents and students will be notified of the exact assessment procedures if this becomes necessary.
11. Parents should not send their child to school if their child exhibits any symptoms consistent with the pandemic or other health emergency.
12. Please do not hesitate to contact school or district officials if you have any concerns regarding your child's education, health or safety.
